Item	Title	Detail
1	Meetings attended	At 9:00 am, I conducted the ZPMC update conference call between Team China and CT personnel from Pier 7. Main topics of discussion included closed rib weld trials, check sampling and austenitic fine grain practice in MTRs. The meeting was followed up by a discussion of documents tracking, especially NCRs, between Team China and Pier 7.
2	Meetings attended	At 2:00 pm, I attended the ZPMC daily stand-up meeting. The schedule for the next day was discussed. ZPMC requested top priority review on several different transmittals. We told them that we would work as quickly as we can and that we had not received some of the transmittals they were requesting.
3	Other important observations	Cutting of materials for check samples did not occur today as planned. We were not requested to witness any cutting nor were we informed if it was rescheduled.
